

# IMERY WATSON

sharp tools for precision work

## Bio ...

I am an artist with over 20 years experience on high profile projects. I hold a Bachelor of Design in visual communications and enjoy travel and the inspiration that it offers. Originally from New Zealand, I have worked there as well as in London and the US. I am currently based back home, though I am happy to work remotely. I am passionate about concept art and art department work and am always open to new creative opportunities. With my broad range of experience in both pre and post production and a strong conceptual basis I am able to make a valuable contribution towards the development of a project.

## Key skills ...

- Visually interpreting scripts with moodboards, sketches and presentation art.
- Concept illustration, using both painting and 3d.
- Animated previs, with an emphasis on composition and storytelling.
- Communicating with directors, production designers and visual effects supervisors to help realise the creative vision of the project.
- Detail oriented but consider each piece in its larger context.
- Strongly conceptual, meaning each design is the result of an intellectual process.
- Hold clear overview of the filmmaking process which allows for better decisions earlier.
- Ability to scale and work a task to a specific timeframe.
- Strong lateral thinking.

## Software ...

- Fluent in Photoshop, Maya, Zbrush, Shake, Final Cut.
- I pick up new software and techniques easily and enjoy learning the software which suits the design challenge best.

## Specialites ...

- Early visual development of pitch images and material based on the script or treatment.
- Set design and visualisation with reference to real world constraints.
- Visual effects sequence design and art direction with consideration of the technical aspects involved including digital mattepainting and set extension.
- Music video direction including written and visual treatments and graphic design.

I enjoy solving design problems in surprising and elegant ways. My focus is in applying my intellectual design process and experience to the creative challenges of pre-production and art department work. I enjoy opportunities for creative collaboration.

## Contact ...

Please don't hesitate to contact me if you feel that my skill-set could benefit your project or to see more work.

personal work . . . .

In 2006 I conceived and produced an animated music video, 'Sloup' for renowned Japanese ambient musician Susumu Yokota. To date, it has featured in:

- Sonar music festival 2007, Barcelona. Pictoplasma: Characters in Motion Festival and publication 2007, Berlin.
- Stash magazine (showcase of animation, VFX and motion graphics), Issue #37, 2008. Anima Festival, Brussels, 2008.
- Museek Festival, St. Petersburg, 2009, London Animation festival, 2009.
