- Excellent artistic and technical skills demonstrated through a diverse portfolio of projects in 3D modeling
- Effective team skills and collaboration with supervisors resulting from working under pressure in a studio environment
- Strong ability to multitask and prioritize, solid work ethic, and professionalism developed by working as an IT consultant

## WORK EXPERIENCE

### 3D Artist

June 2018 – Present

#### SteamLabs Incorporated, Orlando, Florida (Remote)

*Outsourcing services for major game studios and theme park developers*

- Created props and characters from concept art with high and low poly modeling, sculpting, texture and vertex painting
- Prepared models with baking, UV Layout, and lighting, and presented them with rigged keyframe animation
- Developed full educational online courses for Udemy in digital sculpting, texturing, and real-time rendering
- Made tillable BPR textures in Substance Designer with displacement map for an in-house game project
- Designed layout models for a famous theme park by using polygonal and patch geometry modeling
- Contributed on interactive entertainment in Unity and Unreal Engine for VR and shared ideas with other departments
- Reviewed external assets and adjusted them to meet quality standards and to function correctly in-game

### 3D and Digital Artist

September 2017 – May 2018

#### Freelance

*Outsourcing services for entertainment companies to meet their needs*

- Created assets for an MMORPG game, optimizing them with efficient retopology and UV mapping
- Prototyped UI design for an educational mobile application startup
- Produced a short animation clip with toonline render and blend shapes
- Designed a company image, including a logo and business cards, for an investment fund

### Business Consultant

November 2013 – December 2016

#### BearingPoint, Russia

*A multinational technology consulting firm*

- Programmed data bases with SQL/Python and integrated IT systems; shared expertise by coaching junior members
