### ABOUT ME

My name is Matias Toloza Salech from **Chile**, passionate about CGI, 4 years of personal experience in modeling, texturing, lighting and rendering. And working as part of team for 2 years now.  
When i finished my career, I managed to self-learn through out books and video tutorials.  
I really like the creation of **characters, environments, videogames** & everything that has to do with **Sci-fi**.  
I define myself as an adaptable and decided person, willing to face new challenges and keep gaining experience with team work.  
I am also bilingual, I can handle Spanish and English!

### WHAT I THINK ABOUT CGI

CGI is more than just sitting in front of the PC and create great things. To me, CGI is a true art, creating objects from a simple cube or sphere and making the final render look epic with a nice environment and lighting is pretty cool.

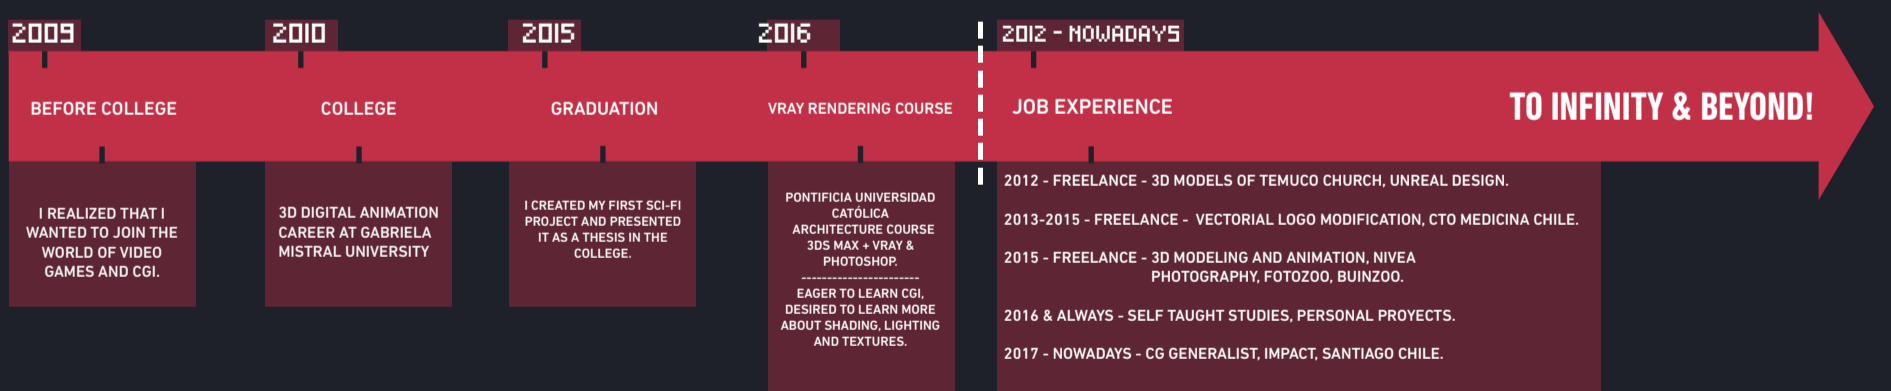

### WHAT ARE MY INTERESTS

I am interested in gaining experience, learn new softwares, sharing my ideas and my knowledge, meeting people from the CGI area and making contacts. I am willing to learn any tool that makes me improve to the best!
