2018

## *Work Experience*

**Interior 3D Artist****Feb 2021- Present**

City From Naught | Keyword | Toronto

- 3D Artist for Keyword, a game with a demo releasing April 2021
- Modeled environment pieces, lightmap uvs, and textured using trimsheets with consistent texel density using PBR pipeline
- Implemented models in Unity, and did placement and debugging of any errors showing up
- Trained other 3D Artists on how to use different software/exporting settings

**Interior 3D Artist****Mar 2019 – May 2019**

Freelance | Global

- Created 2D drawing of interior, modelling it in 3D after
- Made mockup of an interior using Unreal Engine as the renderer which included models, textures, lightmaps, and lighting itself, with the master materials included in the texture pipeline
- Created a post process shader that used an “anime” style, making it in line with the client’s vision

**Director****Dec 2018 - Present**

AdilGameDev | NoSeq | Global

- Director, creator, project manager, worked with a team to make a game called NoSeq,
- Responsible for the modelling, texturing, animations, programming and engine work, working with an assistant for time constraints. Regular updates on projects after publishing such as debugging glitches/general problems, and artistic updates such as updated models
- Took photographs for the project, and edited them using Photoshop with 100% accuracy, basing them as loading screens in the game. Color graded environments using Photoshop for more creative colors/aesthetic.
- Reached top sellers on itch.io first week of publishing
- Showcased at Long Winter TO, a mixed media art event
